

Darrcelle Jackson
Written Exercise #10 – Chapter 5
ITWP-2600
3/22/2026

1. **Trucker Path App** – This app provides many services to truckers that improves the trucker's experience on the road, including finding truck stops and rest areas, parking, and fuel prices while they are driving. This app provides truck-specific navigation to avoid areas with low overheads and restrictive roadways, will send weigh station notifications, and provides the option for trip planning. Trucker Path has both the free version and a subscription-based service. The premium one, called Trucker Path Pro, costs \$10-\$30 a month depending on which subscription you purchase. The Trucker Path App is available for both iOS/Android compatible devices and is a very helpful resource for truck drivers when they are trying to make their trips more efficient and less stressful.

2. **DAT One App** – DAT One is a trucking app that offers an all-in-one solution for truck drivers to help them find freight and plan their trips, fuel price information, truck stop or rest area location and connections to brokers and shippers through the largest load boards in North America. By giving drivers the chance to search for freight, the DAT One app allows them to track delivery progress. The app also has multiple routing and market rate tools to enable drivers to maximize their profits. DAT One is free to download and has in-app purchases, with the full functionality starting from \$54, depending on which plan is selected. The DAT One app works on many mobile devices, including iPhone, iPad, Android smartphones, and Android tablets and can also be used on desktop or laptop computers.

3. **Motive App** – Motive provides fleet management and electronic logging services to assist truck drivers in maintaining electronic logbooks, tracking vehicle locations and tracking drivers' actions in order to improve safety and efficiency while driving a truck. In addition, Motive offers fuel management and load-finder services. Available for both iOS and Android devices, Motive has plans starting at approximately \$20 per month for each vehicle, depending on the plan chosen.
